

# GLOBAL PORNING

## Satellite Sex

SEX, SEX, SEX  
Ubiquitous Sex

### LIZARDS IN CYBER SPACE ARE TAKING OVER THE WORLD

In 1961 the oral contraceptive pill for women brought hassle-free sex for couples, then to singles. This had a huge profound effect on sexual practices, attitudes and relationships. Hence the sexual revolution manifested; breaking the shackles of tradition!

The platform for **pornography** was set in place. There was a growing hunger (mostly for men) to indulge in fantasies. This industry never looked back. Sex shops and mail order subscriptions to purchase porn were in big demand. The porn trade today is bigger than Hollywood!

The intimacy and emotion of love-making began to focus more on the erotic, carnal aspect of connection. A huge shift in

morals, values and expectations influenced culture.

The outcome for men and women has been tragic and disappointing: our basic human need to feel safe, secure and needed, has been compromised.

### **Now cyber smut destroys relationships**

The internet has brought a deluge of pornography into the home and workplace. Images exceed the confines of fantasy and imagination, come at the click of a button. The impact of such an occurrence is said to have an equally significant consequence as that of the sex revolution.

### **Technology incited a social phenomenon, enabling the Lizard Brain to monopolize the internet**

The experts have labeled this emergence as a marriage-wrecker. It poisons couples. It destroys families. Studies and surveys in Australia, Britain and the U.S. have conclusive results. Researchers from Stanford and Duquesne Universities have

called cyber-sex compulsion a “hidden public health hazard<sup>1</sup>”.

In Australia psychologists are equally concerned. Brett McCann, a senior lecturer at the University of Sydney says it is a growing problem with “big implications for the public health dollar. There’s no quick fix and by the time the affliction is uncovered, there is usually a crisis in the relationship.<sup>2</sup>”

**Dr. Amelia Haines**, a therapist at the Sydney centre for sexual and relationship therapy, counsels a lot of people for whom the internet pornography is beyond their control. Some of her male clients revealed that they waste much of their life “wanting to see what’s out there and are embarrassed about how much they are downloading and they can’t stop<sup>3</sup>”.

This diabolical pastime is escalating and many couples are living in misery. Women say over and over the problem needs to be brought into awareness as an addiction. Characterised by compulsive use, secrecy and shame like any other substance abuse is linked to low self-esteem.

**Eric Hudson**, the national president of the Australian Association of Relationship

Counselors found when used in a limited consensual way, it is unproblematic as opposed to secretive use that lets the non-user feel betrayed.

Those who want help could try **Patrick Carnes**, the godfather of the U.S. sex addiction research, who published In the shadows of the net: breaking free of compulsive online sexual behaviour.

Ongoing investigations internationally express the destructive potential side-effects porn has on women. **Helen L'orange**, the former Australian head of the Office of the Status of women, suggests a royal commission or a national inquiry into the effects of the internet on society and relationships, with a spotlight on pornographic material<sup>4</sup>.

### **The 21st Century sure has some very scungy issues on its horizon**

There have been many homemade movies made by celebrities and politicians that have been exposed on the net. Also, many couples are filming themselves in 'the act' for their own amusement.

Another woe resulting from technology is taking nude photos and sexting on their mobiles among school children. This is the biggest problem that middle schools are contending with and is getting out of hand.

This sick obsession is rampant. This is not even morally challenging, but an over-indulgence with a big price tag, creating an ethical health hazard.

Why are we compromising our integrity, for what? I am incensed when I am watching late night TV and an advert comes on with a semi-nude poll dancer with large artificial breasts making lewd comments, says **“Ring me now for fun”**. Gimme a break, this is insulting and horrible! This is a very low standard to sink to.

Did we NOT learn anything from the acclaimed activist, feminist **Gloria Steinman** and the women's movement??

**Girls get your clothes on! Get a life!  
You are acting like wounded goddesses.**

**In closing, I would like to state my opinion:**

# **Porn is stupid!!!**

**AND  
IT DENIGRATES  
WOMEN**

**THE CONTRADICTION OF  
PORNOGRAPHY**

**Is it not ironic, women are unwittingly  
hurting other women?**

There are many women anguished over their sex life. They are desperate for their partner's attention so they resort to mimicking porn/pop star fashions. Men who use porn compulsively pose self-esteem and trust issues for women thrashing about in an emotional state of unhappiness, self-doubt and self-blame.

Woman aged between 25 and 50 have had their lives turned upside down. Their sex lives stumbled and withered away as the men lost interest. Many women complained of feeling worthless and agonised over why their men preferred porn to them.

The Australian women interviewed felt betrayed and inadequate, saw their partners' porn use as a type of affair. They

felt pressured to not seem unreasonable, controlling or uptight.

When my partner secretly used porn it made me feel pretty awful, knowing he preferred masturbating to being in bed with me. After two years of trying to come to terms with his transgressive behaviour, we separated.

Exasperated, I wanted accountability and answers. After a long protracted struggle with my annoyance, the verdict is very simple;

**We know that the male species is a visual animal! Therefore I am going to condemn the female species for enabling men to become a slave to his desires and fantasies (Lizard Brain).**

**At the end of the day women who supply themselves gratuitously in porn as sex objects are coaxing and encouraging men to degenerate into derangement!**

There is duplicity on both sides and I am reproachful to both sexes equally! This is a fair deal. To act appropriately with balance and valour, a bigger vision is needed to conquer this vapid lifestyle.

I visualize myself as a **'goddess'** and emulate a higher pride for myself than that of a victim or an object. This shift must occur to heal from being wounded by **'the games'** we chose to play, wittingly or not. **Get real;** evolution is essential to survival and living holistically.

**I pray that women stop desecrating their bodies for money or two minutes of fame.**

I petition them to value themselves and their sisters and to realize that they are betraying themselves, the children, and our future by selling out to **'Martian whims'**.

Predictably we can expect nothing but grief, loss and sadness when we are not holistic, disciplined or patient.

**URGENT**

**The old reptile brain**

**MUST BE DE-ACTIVATED!!!**

**Unplug porn from the satellite**

**NOW!!!**

**\*Please note, My disdain for porn is mainly because it is on The Internet. I believe that this is a disgraceful crime against Humanity Inciting De-evolution!**

Horin, Adele. *How cyber porn is wrecking relationships*. Sydney Morning Herald, 5/26-27/2007, p. 25-26

2.Ibid

3.Horin, Adele. *One in three porn viewers is a woman*. Sydney Morning Herald, 5/26-27/2007, p. 1-2

FYI-: I want to be specific that there is a big difference between Erotica and Porn films.

Erotica contains a deeper story line that is layered with fantasy and passion with a personal projection that is arousing to women and couples.

Porn is graphic sexual images, more carnal and brutish, animal- bestial desires.

**\*NEWS FLASH!!! FOX NEWS - 24/7/2010**  
“Pentagon kiddie PORN probe; There are Gov't Agent civil service workers viewing “kiddie” porn from inside the PENTAGON! This poses a threat to national security”!

**Things are starting to get very scary.**

## **THE LIZARDS HAVE PENETRATED THE PENTAGON!!!**

Three years ago they penetrated Minerals and Mining Security, a U. S. gov't security agency (responsible for over seeing oil companies activities). The employees were partying and (fraternizing with oil staff) wildly on illicit drugs; cocaine, pot and meth, when they should have been working!

Also an issue, they were busted for watching and downloading massive quantities of PORN! The agency has recently be renamed-trying to move on from their identity being smeared across news programs, after their cover got blown.

I am assuming that the U.S. gov't must employ FBI specialists, in computer crimes and profligacy, occurring while people are supposed to be doing high profile work tasks; ie. National Security. This is another major cause for concern within the gov't.

I HAD COMPLETED THIS ESSAY  
HOWEVER, ONCE AGAIN I HAVE  
STUMBLER ON ANOTHER QUALITIVE  
ADDITION..... to ponder and question....???

# “Pornland”

by Professor Gail Dines

Anti-porn activist and Professor at Boston, USA, **Gail Dines** just published her book on the pitfalls of pornography. “The Internet has changed the way couples relate to each other emotionally and physically”.

Porn is a major capitalistic organization at \$96 billion a year. Massive industries are fed by porn; ie. Banks, Google, Telecom, Advertising, IT industries, etc.

**“This is going to change the nature of behaviour, creating a toxic culture”!**

Professor Gail Dines, Boston, Mass. USA
